

## Mega Chipper V2

### On-Track Plant

Following its hugely successful predecessor, the Mega Chipper, this newly updated version is an improvement on a world first. Designed by QTS, the Mega Chipper V2 is fully automated, rail mounted chipper which has an output of up to 150 m<sup>3</sup>/h.

### Key Features

- Rail wheels hydrostatically driven when in work mode, operated via remote control enabling the operator to be located in a position of safety.
- For safety reasons the unit will be towed into site at max speed of 10mph
- Air Park & Service brakes are fitted
- A single stabilization leg is used for ease and quickness in setting up
- The machine has multiple redundancy systems in case of a failure
- The machine has a 460hp CAT Tier 4 engine
- 4 staggered blades for smoother running
- More powerful track for climbing steep embankments
- 4 x infeed rollers
