JOIN ONE OF THE UK'S FASTEST GROWING COMPANIES

CRE Design

Drumclog – permanent, full time with travel throughout Scotland

The QTS Group is one of the UK's leading Rail Infrastructure, Engineering and Training organisations. A CRE Design is required to work closely with project and commercial staff on various projects. Experience in working within Civil Engineering is essential. We are looking for a self-starter who is a quick learner and can work within a collaborative environment.

Responsibilities include:

- Manage the day-to-day activities of all survey works (topographical/drainage/SI-GI), collate the information gathered and issue to relevant Designer (delegated duties to Design Co-ordinators)
- Co-ordination and liaison with Designer framework co-ordinators
- Facilitate design reviews and progress meetings periodically

- Design capability to review, check and sign-off for all design submissions (F001-003 process)
- Co-ordinate and facilitate required surveys by planning rail access, preparation of WPP/TBS and Risk Assessments as required
- Ability to undertake small scale in-house temporary designs
- Raise and close out relevant Technical Queries (TQs) with both Designers/Client
- Identify any scope change in design/surveys and highlight this to the Operations/Design Manager and commercial/estimating team
- Assist the Operations/Design Manager in ensuring key deliverables are met with respect to programme/budgets
- Assist team members CEM/QS/PM as required with engineering input
- Collate and submit National Performance Metrics (NPM)
- Responsibility of ensuring designs meet client remit/requirements prior to issuing to Operations/Design Manager for approval
- Participate and engage fully in company appraisal/performance review processes and constantly work to improve your individual, your team and wider group's performance.

Skills required:

- 5+ Years Civil Engineering experience within railway environment (Essential)
- Previous Design Management experience within collaborative contract (Desirable)
- Previous CRE (Contractors Responsible Engineer) experience (Essential)
- Familiar with the railway group standards (Essential)
- Full UK driving licence

QTS is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, colour, religion, gender, gender identify or expression, sexual orientation, national origin, genetics, disability or age.
